

John Chase District Governor

John and his wife Elizabeth were born and raised in the Midwest prior to relocating to Las Vegas in 1990. They have two amazing children, Ashley and Meghan.

John joined Rotary in 2001 as an opportunity to further serve his community.

His most memorable Rotary moments are from experiences when he was able to incorporate service to others with his children.

Ashley who was working on her Girl Scout Gold Award went with John to India for an NID (National Immunization Day). Meghan, while working on her Girl Scout Gold Award went with John to Xpujil, Mexico where they built water cisterns. Both trips were amazing opportunities for John and his daughters to experience Rotary on an International scale while having a meaningful impact on the lives of others.

He has witnessed firsthand the importance of the Family of Rotary.

John is serving as your District Governor for one simple reason.... he was asked.

MESSAGE FROM THE PRESIDENT

Last week we learned about the poliovirus. This week I would like to share some information about the first part of the history of Rotary International's ("RI") efforts to eradicate this scourge. In 1979 RI began its fight against polio with a multi-year project to immunize 6 million children in the Philippines. In 1985 RI launched PolioPlus, the first and largest internationally coordinated private-sector support of a public health initiative, with an initial fundraising target of \$120,000,000.

In 1988 RI and the World Health Organization launched the Global Polio Eradication Initiative. At that time there were an estimated 350,000 cases of polio in 125 countries. Six years later, in 1994 The International Commission for the Certification of Poliomyelitis Eradication announced that polio has been eliminated from the Americas. Thereafter, RI launched the PolioPlus Partners program, enabling Rotary members in polio-free countries to provide support to fellow members in polio-affected countries for polio eradication activities.

In 2000 A record 550 million children – almost 10% of the world's population – receive the oral polio vaccine. As a result, the Western Pacific region, spanning from Australia to China, was declared polio-free. In 2004 RI helped synchronize National Immunization Days in 23 countries targeting 80 million children. In 2006, the number of polio-endemic countries drops to 4 - Afghanistan, India, Nigeria, Pakistan. In 2009 RI's overall contribution to the eradication effort nears \$800 million.

RI's efforts continued after 2009 and are ongoing. We will learn about those efforts next week. Wild polio still exists and we need to keep working until we eradicate it. Please donate to the Polio Pig as it makes its rounds through the club.
