Dear Las Vegas Rotary Foundation,

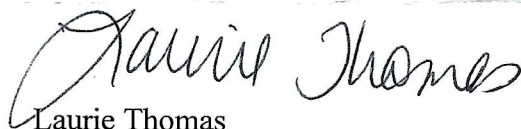

The Las Vegas Natural History Museum sincerely appreciates the Las Vegas Rotary Foundation's support of our nonprofit organization in 2024.

The foundation's donation of \$1,000.00 received Aug. 1, 2024, has provided Clark County students access to museum educator-led experiential learning inside their schools through our STEM School Outreach Program.

Since 1991, our museum has served Southern Nevada families and children in the Downtown Las Vegas Cultural Corridor. Our family-friendly programming reaches nearly 90,000 people per year and supports our mission "to inspire a better understanding and appreciation of the natural world, the sciences, and ourselves through educational exhibits, programming, and research."

Our educational programs and exhibits are made possible with community support and that of organizations like the Las Vegas Rotary Foundation. Thank you for choosing to support our museum and educational programs for children!

Sincerely,

Laurie Thomas  
Executive Director
